Special Cable Despatch to THE SUN. LONDON, Jan. 15 .- A despatch to Lloyds from Yingkow gives further details of the Russian raid led by Gen. Mistchenko. It says that on Jan. 12 a Russian flying colon of 2,000 men, after attacking old Newchwang, attacked Miakiatun, three miles above Yingkow. The Russians opened the attack with shrapnel fire at 3 o'clock in the afternoon, and at 8:30 o'clock they made three desperate charges with the object of burning the Japanese commis-

Major Yokura maintained perfect order in Yingkow. The garrisons at Yingkow and Miakiatun have been strongly reen-

The Tientsin correspondent of the Standard gives a clearer account of the Russian raid than any yet received. He says that ofermation received there shows that the Russians, after hovering in the neighborod of Haicheng and Tashichao, concentrated at a place three miles north of Miakiatun on Thursday last with ten guns. They began bombarding at 4 o'clock in the fternoon, taking the Japanese unawares. The latter lacked cavalry and artillery. They summoned infantry reenforcements from Tashichao, concealed their forces and waited for the Russians to advance.

The shelling lasted two hours, at the end f which time the Russians moved forward. They came in contact with the Japanese, who opened a hot rifle fire, routing the Cossacks and killing fifty of them. The Japmese lost two killed and ten wounded. They have now taken active precautions against renewed surprises of the same

Cossacks are still occupying districts
west of the Liao River, evidently with the design of making further onslaughts on the Japanese communications, which the frozen state of the river facilitates.

Fears are entertained in Tientsin that the Japanese may occupy the Chinese line beyond the Great Wall as an act of selfpreservation. Russia having undoubtedly iolated the neutrality of Chinese territory. A despatch to the Standard from Tokio private stores were commandeered.

says the repeated abuse by Russian prisoners of the liberal treatment they are receiv ing is creating an unfavorable impression. The press is urging the Government to exercise a more rigorous control over them. The Standard's correspondents at St. Petersburg and Odessa mention the discontent over Gen. Stoessel's surrender, in reasons given by Gen. Stoessel in his exview of the stores of supplies and ammunition that remained in Port Arthur. The former says there are rumors that Gen. Kondratchenko deliberately exposed him- boat destroyers at Chefoo, says that the self to certain death rather than to be associated in such circu mstances with surrender.

ONE 70-YEAR-OLD PRISONER. Gen. Nadin, Russian Captive, Excites sympathy of the Japanese.

Cable Despatch to THE SUN. LONDON, Jan. 16 .- The Tokio correspondent of the Daily Mail says that among the latest Russian prisoners who arrived at Nagasaki on Thursday was Gen. Nadin, who is over 70 years old. His appearance excited the profoundest sympathy. He to rest continually, even when walking the shortest distances.

mother was killed by a stray shell and whose State Department to make public Russia's whether her father is among the prisoners | violation of neutrality by China and viola-

BIG INCREASE IN TRADE SINCE THE FIRST CLASH OF ARMS.

Providence Aids With a Crep Worth Nearly \$23,000,000 More Than That of the Previous Year-Valuable Resources Left on Which to Raise More Loans.

WASHINGTON, Jan. 15 .- Lloyd Griscom, United States Minister at Tokio, has sent the State Department an interesting communication detailing the economic conditions of Japan and her trade relations with the United States. Mr. Griscom makes extensive comparisons of the first nine months of 1903 and the first nine months' of 1904. The report shows some interesting facts with regard to the effect of the war upon the finances and industries of

The present year shows an increase in exports of \$6,424,159, and an increase in imports of \$10,000,597, a total increase in trade of \$16,504.758. During the same period the increase of exports in specie and bullion amounted to \$41,403,394, and the increase in imports to \$1,841,370.

During the period in review exports to the United States were valued at \$33,898,622, and imports therefrom at \$19,719,486, showing, as compared with the same period of 1903, an increase in exports of \$3,919,277, and an increase in imports of \$2,702,538. The total amount of the national debt of Japan at the end of September stood at

of about \$9.46. War taxes have been increased on land, incomes, business transactions, sugar, mines, saki, bourses, customs, consumpkerosene and stamps, while a new source of considerable revenue is found in the tobacco monopoly. The official estimate of the net income to be derived from that source for the year ending March 31, 1905,

about \$444,216,000, making a debt per capita

ending March 31, 1906. The Government owned railroads likewise, which are valued by the Ministry of coming year. This item and the tobacco monopoly are assets upon which it is genworkshop was completely destroyed by erally supposed further foreign loans will be raised

is \$12,986,212, and \$16,000,000 for the year

At the beginning of the war the specie lation some of the commanders of forts reserve in the Bank of Japan fell quickly from \$58,481,000 in December to \$34,043,500 the scow, and they began to gesticulate, in May, when the first foreign loan was doubtless responsible for an increase to Dec. 31 soldiers looted a store containing \$58.648,000 in August, the normal condition. The increase of \$19,630,944 in deposits in the leading banks of Japan from January, 1903, to August, 1904, Mr. Griscom says, has been markedly free from fluctuations.

The report says that the necessary aban- at the foot of Whitehall street. The nautical to foreign countries has already had conade and brought 500 sacks of flour. HIGGINS NOT FOR SUNDAY BEER TIFFANY & CO.

SAY HIS REPUBLICAN FRIENDS, AND WOULD VETO IT. Clock and Bronze Department

Interesting Story of a \$20,000 Rake-Off on a Proposed \$100,000 Sunday Beer Fund-A Gas Investigation Prejudiced by the Ailled Influences That Urge It

Gov. Higgins's Republican friends in town yesterday had something to say about the proposition of Chairman Odell to precipitate at Albany this winter excise legislation which in effect would result in "free Sunday beer" for New York city. Regent Edward Lauterbach, formerly president of the New York Republican county committee, and one or two of his friends have for nearly half a dozen years felt that the Raines liquor law was altogether too drastio to be operated with good results in a metropolis like the city of New York. Time and again Mr. Lauterbach has made his views known on this interesting topic, and he has had many talks with eminent brewers besides conferences with Chairman Odelland other Republicans associated in the present management of the New York Republican county committee. Mr. Lauterbach has believed all along that the workings of the Raines liquor law have been detrimental to the success of the Republican party below The Bronx, and in this opinion he is joined by other Republicans. The question has become a vexed one for the reason that it is known that Hayseed Republicans object very strongly to any legislation which will savor of free Sunday beer for the toiling New Yorkers accustomed to the

beverage Some of Gov. Higgins's friends hereabouts said yesterday that the more this subject was stirred up the more unfruitful would be the result to the Republican party below The Bronx, for the reason that neither Regent Lauterbach nor any of his associates, It Looked as if the Southfield Was Trying including Chairman Odell, can safely promise to the brewers or to the Republicans of New York city who do actually want free Sunday beer that the Legislature will listen with any degree of seriousness to a proposithe Battery up East River, at 2 o'clock yesterday afternoon, helped along by a said, that even if the Raines liquor law was fresh westerly wind whose bitterness made amended so that the proposition for free it seem like a gale, tore a scow filled with | Sunday beer especially in restaurants, was passed at Albany, Gov. Higgins would

stone out of the Battery subway excavation from its fastenings at the little pier west of the Barge Office. Two Italians were on the scow, and they began to gesticulate, dance and throw up rockets in the Neapolitan dialect, illumined with flashes of the Italio-Manhattanese of Mulberry Bend.

The scow came pretty close to carving off a corner of the Barge Office pier before it charged for the ferryboat Southfield, whose bow was protruding from her slip at the foot of Whitehall street. The nautical stone out of the Battery subway excavation cans occupies a high place in the New York Republican county committee at the moment and another a high place at Aldagos had caught up the end of a big new hawser, and they flourished it toward every bany, and the latter was to get his share of the \$20,000 "ostensibly as a legal fee."
But always there is a stumbling block—the Republican majority in the Senate and Assembly at Albany—and now there is the hugest stumbling block in Gov. Higgins, whose friends and reterhorizon, indicating that they wanted somethe ship. Meanwhile they kept up a fine flow of language that could be heard blocks whose friends said yesterday, and reiter-ated it, that he would never sign a bill which would give free Sunday beer to New York There were several hundred passengers

There were several hundred passengers aboard the Southfield, bound for Staten shared for yor of Japan during the past year is the unusual abundance of nearly all agricultural products, and especially the unprecedented yield of rice, estimated to be about 248,145,000 bushels, an increase of about 17,494,223 as compared with the yield of since 1891 has been 199,758,794 bushels. Other cereal crops, especially barley and wheat, show considerable increases as compared with previous years.

Considering the present market value of rice, Mr. Griscom estimates that the increased income of the country from this source will be \$22,820,850 over last year, source will be several hundred passengers south of sound of Staten shoult to leave be sabout to leave be slip. Capt. Sam Kohler was in the forward pilot house with his mate, Austin Silva. They saw the heavily laden soow sweeping down on the ferryboat and thev also saw, as did the passengers who had crowded forward, that the scow would surely hit the Southfield and ram so large a hole in her that she stood a pretty good chance of going to the bottom of the slip instead of to Staten Island. The passengers forward ram aft.

Then Capt. Kohler had an inspiration. He recalled that he had sometimes kept list slips clear of ice by letting the boat's paddles kick out twin millraces, and he signal with the would very much prefer legislation based on principles which would come to the surface in both the exciss and the forward pilot house with his mate, Austin Silva.

Concerning the proposed gas investigation, it was made known that Chairman Odell and his alleged Democratic allies, including the Greater New York Democratic allies, including the Greater New York Democratic allies, including the Greater New York Democratic allies, including t wheat, show considerable increases as compared with previous years.

Considering the present market value of rice, Mr. Griscom estimates that the increased income of the country from this source will be \$22,820,850 over last year, which will play an important part in the extra expenditures imposed upon Japan by the war with Russia.

HILDRETH AS WILLIAM TELL.

The Capt. Kohler had an inspiration. He recalled that he had sometimes kept is alips clear office by letting the boat's paddles kick out twin millraces, and he signalled to the engineer for full speed astern. The Southfield thereupon made an effort to out another subway through the Battery. Foam and froth, capping a powerful driven undercurrent, went rioting, like a cascade into a quiescent stream,out of the mouth of the slip. Never have the paddles of an old hooker churned faster.

The influence of the outrush was felt instantly west of the slip. The current was fest instantly west of the slip. The current was quite so ineffective in its management as quite so ineffective in the correction of the surface in quite so ineffective in its management as at the present, or so low in morale.

> GOV. HIGGINS SAYS NO AGAIN, And Leaves Flon R. Brown Up a Stump

will discuss the affair.
